

# ACE CAPITAL GROUP

## **Our Mission**

Our mission at ACE Capital Group is to deliver the maximum possible benefits to our customers, affiliates, agents and employees. We achieve this by earning the optimum profit possible for our customers thereby spawning a progeny of business and gainful employment, and invariably delivering a reasonable return for our shareholders.

Our continued success rests on the quality and attitude of our professional team of operating agents, affiliates and employees. The public perceives the image of ACE Capital Group by the quality and attitude of services manifested by this team. Therefore, we pledge to ensure that ACE's image reaches and sustains a pinnacle position in our industry.

Our business model is founded on the principle of using pre-developed land as the vehicle to maximize long-term profits for our customers. Also known as Land Banking, it is a time-tested, predictable, and long-term real estate appreciation strategy that has aggrandized the fortune of innumerable participants by providing a "Cradle for Financial Security".

Our business goal is to reach out to as many people as possible and educate them on the benefits of Land Banking and how they can improve their retirement perspective by using their 401(k), IRA and other retirement funds to purchase select California real estate.

Since the average American retires on less than \$1,200 per month with only 2% of all Americans being self-sufficient at retirement, our clear objectives are to make people aware of this uncomfortable American retirement plight; awaken their urgent need to seek better vehicles for long-term appreciation; and convince them beyond a doubt that our Land Banking alternative will fulfill their need for a better retirement.

We know our market is vast and waiting for us to come to its rescue. We graciously accept this challenge and opportunity.

Chen C. Wang,  
President and CEO  
ACE Capital Group
